- *Fully Automated Process*
- *Damaged Credit History not an Automatic Disqualifier*

## CAPITALIZE ON THE STRENGTH OF YOUR BUSINESS

A Merchant Cash Advance powered by AdvanceMe is a funding product providing business owners an alternative to business loans. If your business processes regular credit card sales and meets a few other simple criteria, you may be able to convert some of your future credit card sales into working capital.

### Basic Criteria to Qualify for a Merchant Cash Advance:

- You have owned the business for one year or longer
- The business has a physical location, and you are current with the landlord
- The business processes a minimum of \$5,000 per month in credit card sales

## HOW IT WORKS

- 1** Once approved, your business sells AdvanceMe a fixed amount of its future credit card sales at a discount.
- 2** In exchange, your business receives a lump sum of working capital. You are free to use it for any business need.
- 3** The credit card processor automatically sends AdvanceMe a fixed percentage of each credit card sale as it is settled.
- 4** The business' credit card sales volume determines how much is forwarded each time – there are no fixed payment amounts. We get paid when you get paid.

**3 out of 4 of AdvanceMe's eligible customers choose to return for another funding, demonstrating our commitment to customer satisfaction.**

## TRUST AN INDUSTRY LEADER

AdvanceMe is the nation's leading provider of Merchant Cash Advances. Since 1998, over 25,000 businesses in all 50 states have trusted AdvanceMe for their funding needs, including more than 100 top franchise concepts. AdvanceMe has provided capital to more businesses than anyone else in the industry, almost \$1.5 billion to date. AdvanceMe's data, systems, and technology support best-in-class working capital solutions that help businesses manage their expenses and grow.
